

Accelerating Nonprofit Success

THE CIVIC 50 ORANGE COUNTY

Assess, Analyze, Acknowledge – Be celebrated as one of the top 50 most community-minded companies in Orange County.
The Civic 50 Assessment Now Available.

What is Civic 50 OC?

Part of OneOC's Signature Event Series, participating companies complete a free online confidential survey based on four dimensions of their Corporate Social Responsibility (CSR) program: Investment of resources, Integration across business functions, Institutionalization through policies and systems, and impact measurement.

Companies that score in the top 50 of those taking the assessment will be honored at a special event on Thursday, September 5th, 2024.

All companies that take the assessment receive a score card that past participants indicate not only helped them understand how they could improve their CSR processes but provided actionable strategies for the future.

As the local Affiliate of the Points of Light network who established the national Civic 50 program, OneOC was the first organization in the country to take this out into a local community in 2017.

Why Take the Assessment?

Year-Round Recognition – In addition to the announcement, honorees are provided with marketing assets and resources to promote their designation internally and externally.

Align & Scale Your Programs – The Civic 50 OC framework provides companies with a simple, yet effective tool for aligning and scaling their programs to drive greater community impact.

Peer Connections & Learning – Connect with and learn from other leading peer companies to share insights and best practices.

Scorecard Report & Benchmarking – Every company receives a free scorecard report with benchmarking data to help track annual improvement and communicate your impact story.

Storytelling & Inspiration – The framework and assessment tool help companies understand and authentically tell their impact story to inspire others to take action.

Standardized Language – Using the common language and framework accelerates learning and helps advance the sector.
